### **STREICHER MOBILE FUELING, INC. TO ANNOUNCE THIRD QUARTER 2006 FINANCIAL RESULTS ON MAY 22, 2006**

### **CONFERENCE CALL SCHEDULED FOR MAY 24, 2006**

*Ft. Lauderdale, FL, May 17, 2006* – **STREICHER MOBILE FUELING, INC.** (NASDAQ: FUEL) (the “Company”), a leading provider of petroleum product distribution services, transportation logistics and emergency response services to the trucking, construction, utility, energy, chemical, manufacturing and government service industries today announced that it expects to report its fiscal third quarter results on May 22, 2006.

In its filing with the SEC to extend the reporting deadline, the Company explained that it is implementing a new, Company wide accounting and operations management systems and expanding its related infrastructure in order to upgrade its internal accounting procedures and processes; integrate its newly acquired businesses, and future planned acquisitions; provide cost effective shared services to its affiliates; and to ensure compliance with the internal controls evaluation requirements of Section 404 of the Sarbanes-Oxley Act of 2002 when applicable. The ongoing effort to implement these new systems, including training of new personnel, has required a substantial commitment of its management resources and accounting personnel which has, in turn, caused delays in finalizing the Company’s financial results and related reporting.

The Company anticipates that it will report a loss of approximately \$2.2 million for the quarter, a \$900,000 increase over the loss reported in the same period a year ago. The increased loss is attributable to several factors, including the costs of the Company-wide infrastructure development program to support its business plan. During the quarter, the Company also incurred costs relating to the integration of Shank Services and H & W Petroleum; higher cash and non-cash interest expense; increased bad debt provision; lower petroleum products sales volumes during the quarter attributable largely to customer reaction to recent increases in fuel prices; and increased operating costs for driver wages, benefits, hiring, training and retention, and running fuel usage than in the third quarter of fiscal 2005.

### **Forward Looking Statements**

This press release includes "forward-looking statements" within the meaning of the safe harbor provision of the Private Securities Litigation Reform Act of 1995. For example, predictions or statements of belief or expectation concerning the future performance of the new operating location, the expansion plans of the Company and the potential for further growth of the Company are all "forward looking statements" which should not be relied upon. Such forward-looking statements are based on the current beliefs of the Company and its management based on information known to them at this time. Because these statements depend on various assumptions as to future events, including but not limited to those assumptions noted in the "Management's Discussion and Analysis of Financial Condition and Results of Operation" section in the Company's Form 10-Q for the quarter ended December 31, 2005, they should not be relied on by shareholders or other persons in evaluating the Company. Although management believes that the assumptions reflected in such forward-looking statements are reasonable, actual results could differ materially from those projected. There are numerous risks and uncertainties which could cause actual results to differ from those anticipated by the Company, including but not limited to those cited in the "Risk Factors" section of the Company's Form 10-Q for the quarter ended December 31, 2005.
